

CARES-NB

Collaborating Actively on
Resident Empowerment
and Success in
New Britain

What's Possible In Our Work?

Vision

- New Britain residents will achieve positive life outcomes by increasing social and personal capital

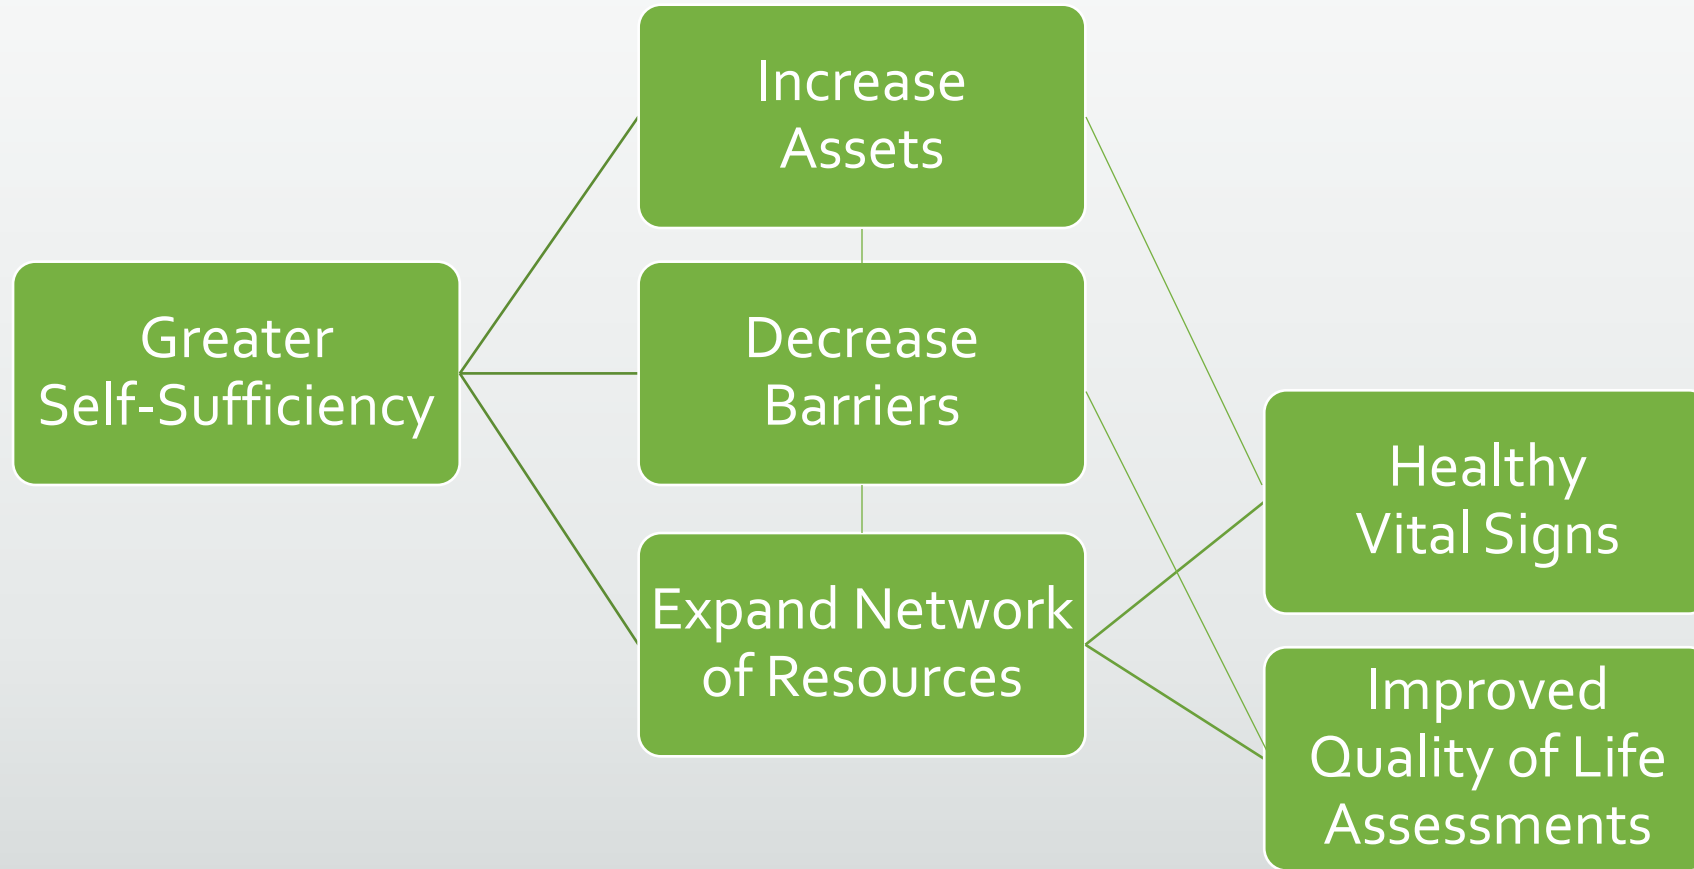

Mission

- A network of agencies delivering coordinated services to people working towards self-sufficiency

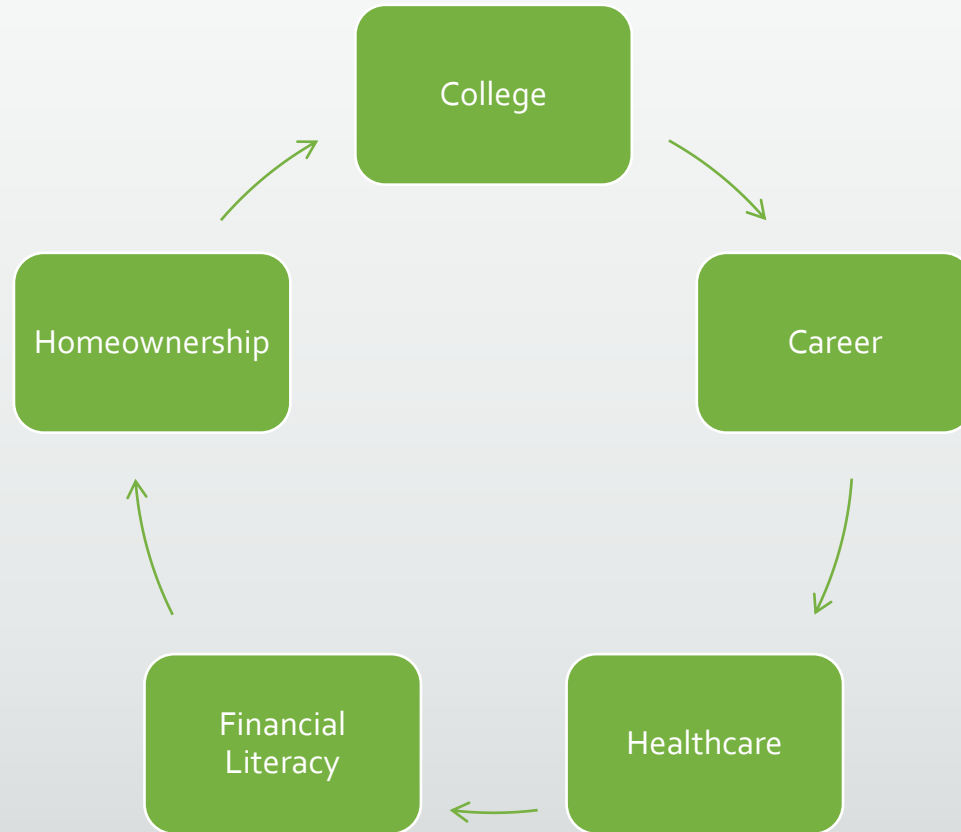

Project Scope

- Form a network of human services agencies
- Partner agencies endeavor to become a source of social capital for participants
- Do evidence-based work; outcomes will be tracked using the Passport for Success
- Create additional momentum through relationship
- **Boundaries:** This is NOT a program, although it includes programming. We deliver holistic, wraparound services

Goals, Objectives, Outcomes

Achieving Self-Sufficiency

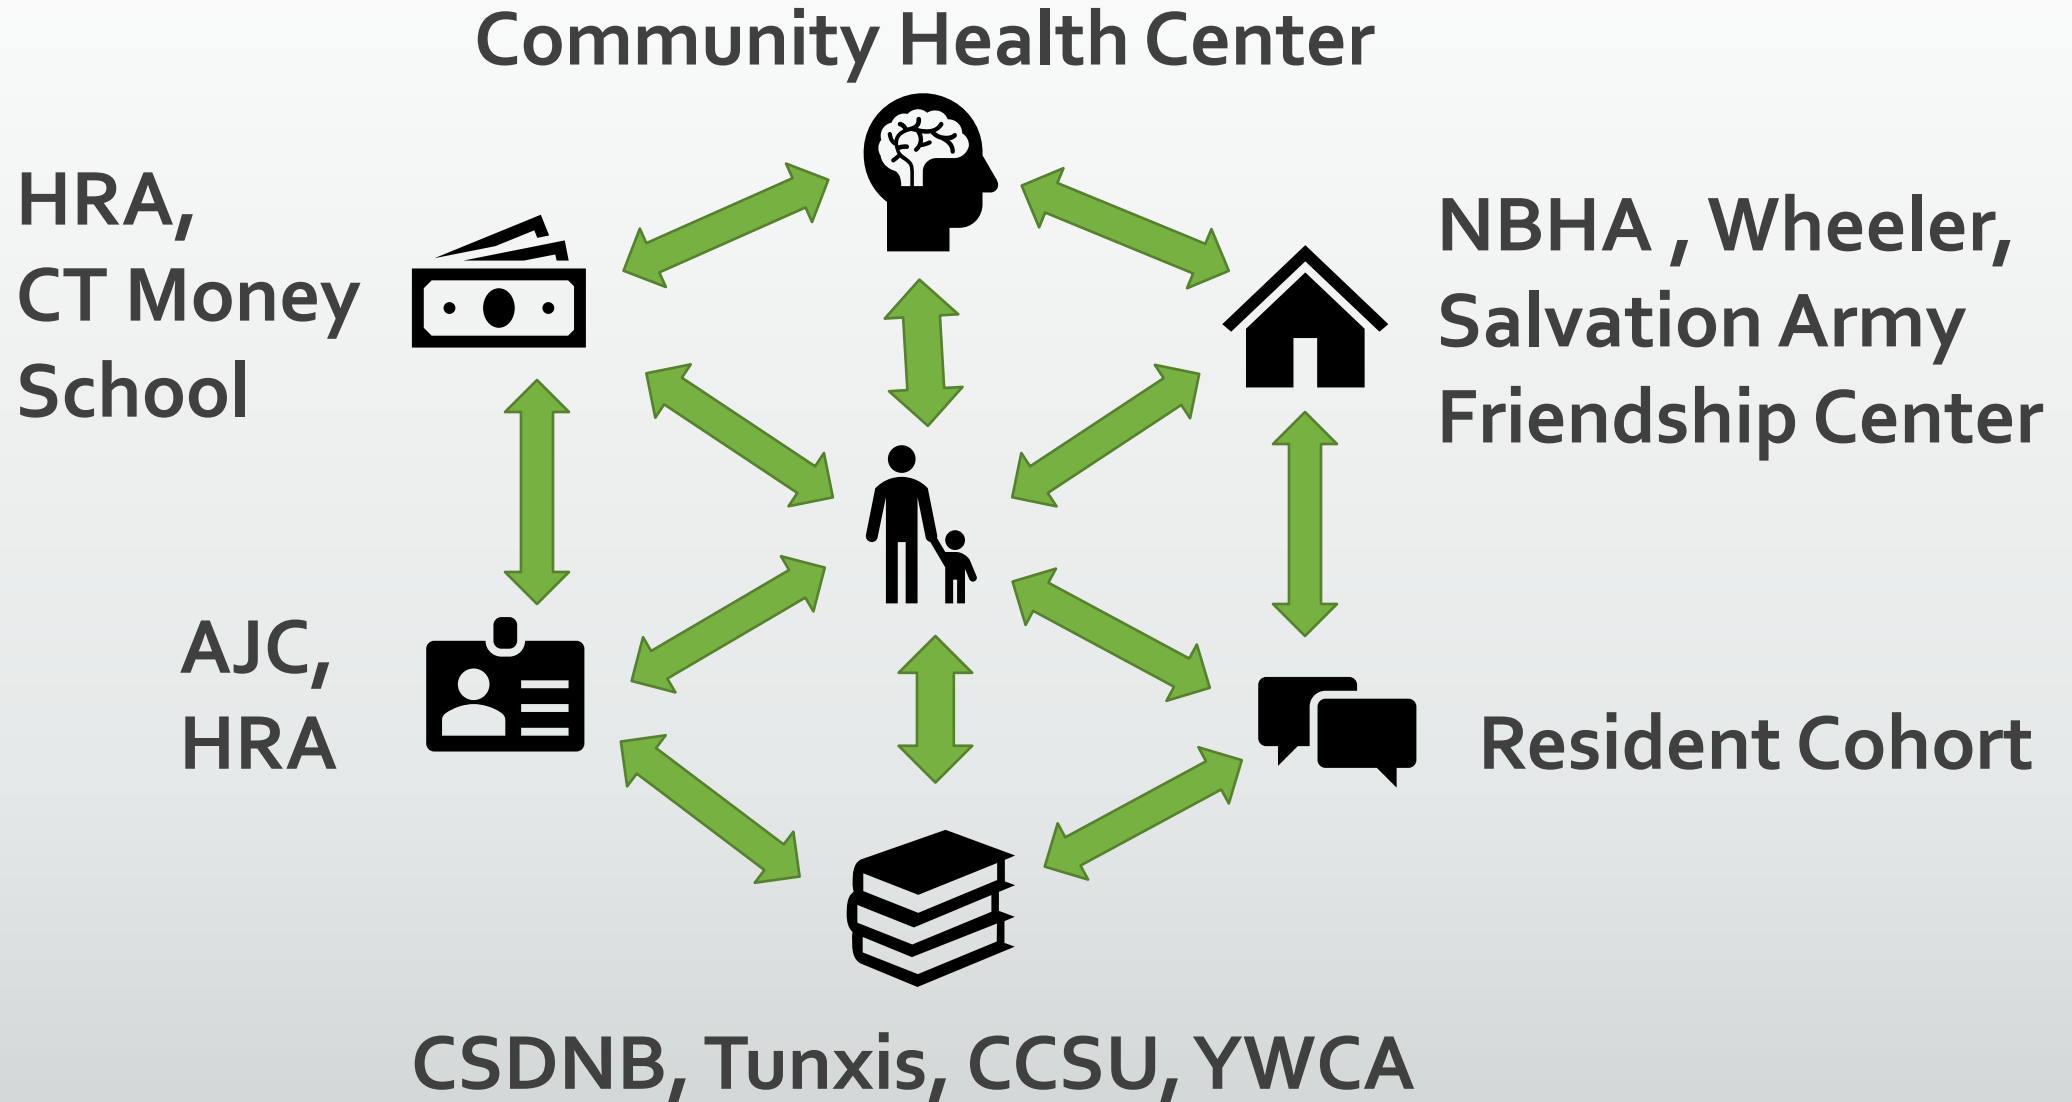

- Certain residents are looking to achieve full self-sufficiency, free of public assistance
- This is a long-term play that requires a commitment to planning, execution, and getting results
- Agencies will be asked to reinforce good results, provide encouragement, and help clients persevere

Increasing Self-Sufficiency – Short Track

- Other residents are looking to increase self-sufficiency. What's possible for them right now is having a little more money and stability
- Participating agencies will help these residents increase self-sufficiency
- Participants leave with a long-term success plan

Our Network

Deliverables
