

Our Approach

Our Vision

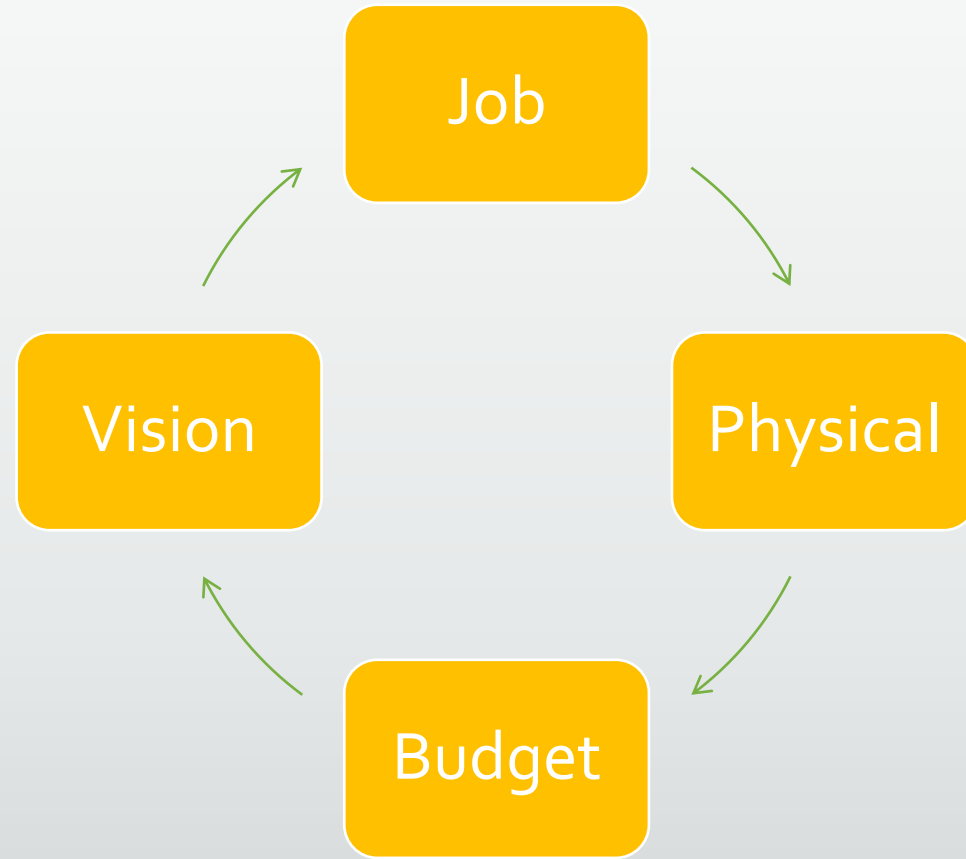

Achieving Self-Sufficiency – Long Track

- Certain residents are looking to achieve full self-sufficiency, free of public assistance
- This is a long-term play that requires a commitment to planning, execution, & results
- Agencies reinforce good results, provide encouragement, and help clients persevere

Increasing Self-Sufficiency – Short Track

- Other residents want to increase self-sufficiency. What's possible for them now is having a little more money and stability
- Participating agencies help them increase self-sufficiency
- Participants leave with a long-term success plan
